GETTING STARTED

Connect the mouse to the computer using the charging cable into any USB port, and you can use the mouse in wired mode.

Connect the USB wireless receiver to the computer. Use the mode switch button and slide it to the left for 2.4G mode.

2.4G Connection: Slide the switch on the bottom to the left for wireless mode. Inserting the 1K Receiver into the computer's USB port and you can start to use the mouse. If you want to connect with the 4K Receiver, simultaneously press the left, center, and right buttons for 3 seconds on the Receiver. The blue light will slowly flash once every 1 second for 20 seconds.

Bluetooth Connection: Bluetooth Connection: Slide the switch on the bottom to the right for Bluetooth mode. The blue light of Bluetooth will flash twice every second. You can find the device name "Gravastar M2" in your Bluetooth device list.

Wired Connection: Connect the mouse with the cable. The Wired mode takes priority over other connections (2.4G/Bluetooth modes will be automatically turned off).

Low battery warning: Low battery warning: Battery level is lower than 20%, a. Red light flashes twice every second; b. Automatically enters low battery mode and the light turns off.

SPECIFICATION

Product Name : GravaStar Mercury M2 Wireless Gaming Mouse

Model : GravaStar M2

TECHNICAL SPECIFICATIONS:

LIGHTSPEED wireless technology/LIGHTSYNC RGB lighting/ON-BOARD MEMORY PROFILES

Magnesium alloy shell/Exoskeleton Design/PTFE Feet

Sensor: PAW3395DM

Master Control : BK CX52850

Resolution: 26000 DPI

Max Speed (IPS) : 650

Max Acceleration : 50G

USB Reprt rate : 1K Hz (2.4G)

Bluetooth Version: V5.3

Input : 5V~350mA

Battery Capacity : 300mAh

Charging port : Type-C

Net Weight(Mouse Only) : 79g

Product Dimension: 124(L)*64.5(W)*39.5(H)mm

System Compatibility: Windows/Mac/iOS/Android

*The above specifications are for reference only, and the manufacturer reserves the right to optimize and modify product specifications without prior notice.

Warranty

One-year warranty.

Within the warranty period of the product, if any malfunctions are due to the product's own quality, users can contact the retailer with purchase receipt to receive free repair services.

These will not be covered by warranty:

- Damage caused by self-disassembly.
- Malfunctions or damage resulting from water exposure, drops, or deliberate mechanical damage.
- Malfunctions or damage caused by force majeure events.

FCC Requirement

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
